Further details:

The human rights guidelines have been prepared by the Council of Europe in close cooperation with EuroISPA and ISFE in order to address opportunities and challenges for promotion and respect of human rights.

The guidelines form part of the Council of Europe's multi-stakeholder approach to the Internet seeking to ensure peoples' enjoyment of a maximum of rights and services, subject to a minimum of restrictions, while at the same time seeking to ensure the level of security that users are entitled to expect.
